OUR COUNTRY OUR CHOICE

TIME TO TAKE A STAND:

ENOUGH IS ENOUGH!

I AM COLONEL DOUGLAS MACGREGOR, a retired combat veteran and former Senior Advisor to the Secretary of Defense under President Trump. Today, I serve as the CEO of Our Country Our Choice (OCOC), a 3rd way in American politics with a peoples' movement and media powerhouse. We are on a mission to unite Americans across party lines, forging the most formidable force of informed activists in the US history, determined to change Washington.

OUR BATTLE PLAN: To empower Americans to identify and elect representatives who prioritize the American people over wealthy donors. Make no mistake; this critical mission falls squarely on our shoulders, and no one else will get it done.

THE TIME HAS COME TO ACT: The deep state seeks to divide us because united Americans are the globalists' worst nightmare. Recall 2020: everything seemed fine until the "plandemic" struck with its insane shutdowns, regulations, and isolation. We will never forget nor forgive what they did. It could happen again, unless we unite, stand strong, and ensure it won't.

OCOC: THE UNIFYING FORCE: We founded Our Country Our Choice for one reason and one reason only: to serve as the umbrella under which all patriotic Americans and like-minded organizations rally. Together, we are creating a historic movement to save our beloved nation from destruction.

URGENT CALL TO JOIN The responsibility of reclaiming our nation and defeating the deep state falls squarely on our shoulders. OCOC's very existence hinges on uniting ALL Americans in this battle for our future.

VETERANS, MILITARY, AND FIRST RESPONDERS: To my fellow veterans, active-duty military, and civil first responders, your service isn't over. Join OCOC, as thousands among your ranks already have, and let's fight together.
