

OUR COUNTRY OUR CHOICE

URGENT CALL TO ACTION: AMERICA NEEDS YOU!

**TRUTH SETS
YOU FREE**

A message from **Douglas Macgregor, Ph.D.**

I am retired Army Colonel Douglas Macgregor, a combat veteran who had the privilege of serving as a Senior Advisor to the Secretary of Defense for President Trump.

Currently, I serve as the CEO of **Our Country Our Choice (OCOC)**, a combined people's movement and media company whose vision is to identify millions of like-minded Americans and build the most extensive group of informed activists ever assembled.

Our plan is to help Americans identify and elect representatives who will serve the interests of the American people rather than their wealthy donors. NO ONE, other than us, will accomplish this crucial task.

We should all agree that today's America is almost unrecognizable from America a short time ago. Each day, we continue to witness shocking threats from both within, and outside, our borders. Consider that, just four years ago, in January 2020, our economy was thriving - little to no inflation, affordable energy, and family incomes equal to, or surpassing, the general cost of living.

Then, the ruling class methodically subjected us to a relentless series of unscientific, absurd pandemic policies and restrictions that effectively crippled our healthy economy, our freedoms, our liberties, and our general flow of American life - attacking us, on multiple fronts, with little to no resistance from most Americans. What we should find most disturbing is that these same tyrants are preparing to do it again!

**My question is:
How will we respond this time?**

Urgent Call to Action: Americans are understanding that the responsibility for reclaiming our nation and defeating the Deep State rests solely on OUR shoulders. That's the primary reason OCOC was formed - to **UNITE ALL Americans** to fight back.

And, as a special note to my fellow veterans, current members of our military, and Civil First Responders, I say this: We've all sacrificed, but our service is not yet over. I implore you to join OCOC (like tens of thousands among your ranks already have) in this battle.

Please visit OCOC's website at www.ourcountryourchoice.com and join Americans who are choosing to **take back Our Country!**

GOD BLESS AMERICA
